

Navobod (1280m) - Khoja Ali (1340m)

Distance: 18km

Ascent: 270m

Descent: 210m

Trail: Easy – Track and Road

Accommodation

Camping. Head into the Kamarob Valley for a couple kilometres to find a spot away from habitation. There is a bridge 2.5km, that takes you to the other side, which gives more shade from the trees and a bit more secluded camping.

Description

From Navobod you can take it easy. Although there is a walking trail going up a small ridge east of Navobod, you can opt for the easy way along the road along the Sorghob River. You can stay on the true right bank or cross the river and walk on the left bank. Either way will get you to Khoja Ali.
