

## **Deh-i Khoja Ali (1340m) – Subaday River (1965m)**

**Distance:** 23km

**Ascent:** 1000m

**Descent:** 375m

**Trail:** easy – clear track

### **Accommodation**

#### **Camping**

There is a little shop in Deh-i Khoja Ali with dry food like noodles, biscuits and chocolate.

This is an easy stage without any technical trail. Keep going east you follow a dirt road for 23km along the Kamarob River. You may come across a few vehicles but there is hardly any traffic. There are some isolated houses or shepherd camps along the way. Where the Subaday River meets Kamarob River, there is a big flat area to put the tent. There is also a shepherd camp, so it's a good idea to filter drinking water.
